This Office Action is in response to the papers filed on October 14, 2003.

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, claim 10's recitation of "OLE_LINK1" is unclear (note that corresponding method claim 20 does not recite "OLE_LINK1").

Claims 1-9 and 11-20 are allowable over the prior art of record.

Ido et al. (United States Patent 6,362,514) and Koike (United States Patent 6,649,997) are relevant to this application.

The prior art of record does not disclose or suggest the allowable electrical structure taken as a whole, including the first and second dielectric layers.
